

# FIRST ANNUAL HBA REGULATORY SUMMIT

*HBA Health & Beauty America  
Prepare your Company for the Regulatory Revolution*

## HBA REGULATORY SUMMIT OVERVIEW

**Wednesday, September, 13<sup>th</sup> 2006**

**Jacob K. Javits Convention Center**

**Full Day Conference: 9:00am - 5:30pm EST**

The First Annual HBA Regulatory Summit is designed to be a history-making, pro-active initiative to provide thoughtful, educational insights into the movements, legislation, scientific technologies and impact of current and potential global regulatory changes.

## SPECIAL KEYNOTE SPEAKER:

**Bruce N. Ames, PhD.**

**"Maximizing Health: *The World of Risks in Perspective*"**

Professor of the Graduate School of Biochemistry & Molecular Biology and Director of the National Institute for Environmental Health Sciences Center at University of California at Berkeley.

**Dr. Ames was awarded the National Medal of Science** for "changing the direction of basic and applied research on mutation, cancer and aging". He is also famous for developing a simple, inexpensive test for environmental and natural mutagens, commonly known as the **Ames Mutagenicity Test**.

## WHO SHOULD ATTEND\*

- Technical specialists in product development
- Business managers
- Packaging companies
- Marketing, packaging and labeling specialists
- Attorneys: in house and outside counsel
- Toxicologists
- Clinical testing laboratory personnel
- Regulatory specialists
- Contract packagers

HBA Health & Beauty America highly recommends that personnel responsible for product introductions and sales in the major global regions of the world attend.

## REGULATORY SPEAKER PROGRAM

Key speakers representing a balanced variety of points of view regarding this rapidly changing global issue for the beauty, fragrance, and wellness industries.

### Speakers will include:

Specialists on current and emerging global regulations, toxicologists, legal regulatory experts, major finished goods manufacturers, suppliers, Cosmetic, Toiletry, and Fragrance Association (CTFA), International consultants and European experts.

### Special interest topics:

- New regulatory changes regarding packaging and labeling;
- Regulatory compliance issues;
- Recent developments in product liability issues, animal testing, disclosure requirements and chemical testing;
- Managing chemical compliance;
- Identifying legal/regulatory and technological resources to support new product development consisted with emerging regulatory requirements.

## PROFESSIONALLY MODERATED PANEL

### Co-Moderators:

**Meyer R. Rosen, FRSC, FACFE**

President of Interactive Consulting, Inc.

**Rebecca James Gadberry**

President & Chairman of YG Laboratories

The co-moderators will interact with the audience in an empowering one-hour dialog. Both panel and anonymous audience-generated questions will be asked and answered.

## UNIQUE WEBINAR

HBA Regulatory Summit will be available on a global basis via the Internet to inform responsible individuals and companies who can not attend in person, of this major shift in the trend to redefine safety in personal care and cosmetic products.

## PRESS COVERAGE

HBA Regulatory Summit will be supported by all the major trade media and business publications both US and International
